

# Sustainability

## Our Vision for Good

At Johnson & Johnson Vision, we are committed to creating a healthier world. Through our global, proactive sustainability initiatives, we have a strong record of protecting the planet and reducing our environmental impact.

### Climate

Since 2008, we have significantly reduced our carbon footprint with renewable and energy efficiency initiatives in the U.S. and Ireland.

**36,500** tons of CO<sub>2</sub> saved per year through renewable and energy efficiency initiatives in the U.S. and Ireland.\*

➤ SOLAR CANOPY	➤ 3-MEGAWATT WIND TURBINE	➤ UPGRADED TECHNOLOGY
A solar canopy at our HQ in Jacksonville, Florida will eliminate 3,600 tons of CO <sub>2</sub> emissions over its lifetime.*	A wind turbine installed at our facility in Limerick, Ireland generates 4GWh of energy from wind, offsetting 3,118 tons of CO <sub>2</sub> annually.*	Our upgraded production technology for ACUVUE® OASYS 1-Day Contact Lenses resulted in a 12% reduction of energy used to produce each lens.*

### Waste

Our waste reduction efforts include full life-cycle, sustainable product development.

**90%** of raw materials are recycled.\*

➤ MANUFACTURING	➤ RECYCLING	➤ COLLECTION
In our manufacturing process, 90% of our raw materials are recycled.*	FREE nationwide contact lens recycling program in the U.K. enabled 2.375 million contact lenses to be recycled. All brands of contact lenses are accepted for recycling.*	Opened 1,000+ contact lens and packaging recycling collection stations in the U.K.*

## Protecting Natural Resources

To protect our natural resources, we seek solutions that combat deforestation and protect and preserve water, ensuring our products don't end up in streams, rivers and oceans.

### Leadership in Sustainability

Environmental Leader 2017 Product of the Year for sustainable product updates\*

Paper for contact lens cartons sourced from **sustainable forestry products\***

### Earthwards®

Johnson & Johnson Family of Companies' internal program for developing new innovative and more sustainable products\*

<p><b>1D</b> ACUVUE® OASYS 1-Day Contact Lens with HydraLuxe™</p>  <p>New packaging utilizes 60% less paper, reducing energy consumption in the manufacturing process by 12% and resulting in a 12% reduction in greenhouse gas emissions.*</p>	<p><b>1D</b> ACUVUE® OASYS 1-Day Contact Lens</p>  <p>New packaging reduces paper used by 60% requiring 13% less energy to ship and distribute.*</p>	<p><b>1D</b> 1-DAY ACUVUE® MOIST Brand Contact Lenses with LACREON® Technology</p>  <p>Recognized for 62% secondary packaging reductions using 100% Sustainable Forest Initiative (SFI) certified material and 100% reduction in Green House Gases (GHG) at one point in distribution.*</p>
